HELPFUL HINTS -QUICK CODE MIGRATION -ALIGNING CONTROL BALANCES (6.1 TO 6.2) -SEGMENT VERIFICATION

JULY 2018

# DESCRIPTION

The following information will assist with the finer details of successfully completing your Munsoft Year End process.

### QUICK CODE MIGRATION

If the quick code you are correcting is of an Income nature and you have budgeted on the correct 6.2 strings, the new segment string will be listed to choose from on the Quick Code Maintenance screen.

However, if you have not captured budget against the correct strings, but you want to transact against the correct Income Item, you can use below steps to correct the Quick Code.

In the screenshot below, the Item on the quick code on 6.1 is no longer at posting level on 6.2.

Project Reference						

To correct:

On the 6.1 mSCOA Chart, note the 'level' of the Item (Posting with Internal Breakdown allowed)

On the 6.2 mSCOA Chart, the Posting level of the same Item has moved down a level, therefore the 'new' Posting level Item will be selected.

#### ALIGNING CONTROL BALANCES AFTER YEAR END

## An automated process will align Controls from 6.1 - 6.2

#### VERIFYING SEGMENTS AFTER YEAR END

- Once the system has rolled over to 2019, all NON-Control Account alignments should be done using the SCOA Verification Screen. General Ledger > SCOA Menu > Comparatives Setup > SCOA Segm Verif
  - > The program will indicate the segment which requires correction, in red with a reason for being invalid.
  - > Use the dropdown to select the correct segment.
  - > Make sure to visit all the different tabs to ensure all segments are verified.
  - > Once all is complete, make sure to click the PROCESS button at the bottom of the screen. (OK, OK, Process if you Cancel, all changes will be rolled back)
  - > By clicking PROCESS, there will be an automatic migration of balances from 6.1 to 6.2.
